

About Petroleum & Equipment

Petroleum & Equipment, based in Beijing, is a leading media distributed in China with a full coverage of the industry. We are trying to bridge all the industry related parties together. Our readers are all around China. They are mainly management personnel, purchasing personnel, technical personnel and other high-level business people. Currently our magazine is bimonthly, with an issuing volume around 30000 each issue. And that insures the high quality of our magazine. However, we are preparing a monthly publication.

Our advantages:

Read by 20 large oilfield's management and engineers

An expert team of 82 experts

121 correspondents in oilfields, equipments manufacturers and research institute

Promotion in more than 130 exhibitions and forums

Support from more than 1700 equipments manufacturers

Issue volume of 30000 each issue

Promotion opportunities

We are providing great opportunities for overseas enterprises to promote their services or products to be known in China. Please contact Luke Yin for more information.
